

A background image showing a person from the back, wearing glasses and holding a tablet, looking at a screen. The image is overlaid with a dark teal gradient.

Equipping professionals with **data & AI** Competences for better social intervention

Many third sector organisations work with limited resources, small teams and largely manual processes.

SCAN TO DISCOVER
THE PROJECT AND
TRAINING MATERIALS

DIGICARE brings data and AI closer to everyday social intervention, helping improve decision-making, understand needs and assess impact more effectively.

What DIGICARE offers

DIGICARE course

Practical learning on data management and AI applied to social intervention.

Social intervention best practices

Effective field practices with step-by-step replication guidelines.

Recommendations for VET and CVET providers

Guidance to embed advanced digital competences into social intervention related training.

Who it is for

Social professionals and organisations working directly with people facing exclusion, and VET and continuing VET educators.
